- Mi Smart Plug (CN)
- Aqara Wall Outlet (CN)

Lighting

- Ikea E14 White Spectrum
- Ikea GU10 White Spectrum
- Ikea E27 White Spectrum Opal
- Ikea E27 White Spectrum Clear
- Ikea E27 Warm White
- Ikea E14 Warm White
- Ikea GU10 Warm White
- Aqara/Oppl MX960 Ceiling light
- Aqara/Oppl MX650 Ceiling light
- Aqara/Oppl MX480 Ceiling light

Miscellaneous

- Mi Cube
- Aqara Curtain Controller

There are a couple of placeholders for devices that when pressed, appear to be the forthcoming **Aqara light detection sensor**, and the **Aqara US Light switches**, but they fail to add after a few seconds, so there seems to be some work to do. If you were to compare this list to what can be added to the Aqara hub via the Mi Home app, there are a few omissions – once again, this is at the time of writing. By the time you read this review, these devices may well be added to the list;

- Aqara Mini Switch
- Aqara Vibration Sensor
- Aqara Cube
- Aqara Tunable White Bulb
- Aqara Wireless Relay Controller
- Aqara Curtain Controller B1
- Aqara Roller Shade Controller
- Aqara Door Lock S2
- Aqara Door Lock S2 Pro
-

It would seem whilst the current list of devices compatible with the Mi Smart Gateway isn't as complete as it is for the Aqara gateway (at the time of writing this review), many of these devices are in fact supported, just not officially at this time, hence their omission. I'm fairly confident that the list of devices will continue to grow, and have since been informed that some devices previously not listed are now visible in the latest list to appear in Mi Home, which is updated from the cloud and doesn't require an update as such.

There are also a few devices listed in the Aqara app that aren't listed as officially being able to be added to the Mi Smart Gateway;

- Aqara Motion Sensor T1
- Aqara Door and Window Sensor T1
- Aqara Temperature and Humidity Sensor T1
- Aqara Water Leak Sensor T1
- Aqara Light Detection Sensor T1
- Aqara Smart Plug (US)
- Aqara Smart Plug (EU)
- Aqara Smart Plug T1 (CN)
- Wireless Mini Switch T1
- Aqara Spot Light (tunable white)
- Aqara Spot Light
- Aqara Down Light (tunable white)
- Aqara Door Lock HL
- Aqara Constant Current Driver T1-1
- Aqara Constant Current Driver T1-2
